

# Ergofeel<sup>®</sup>

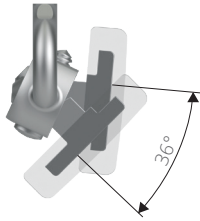

## Ergonomic touch, comfortable feeling

Self aligning pad and pad-arm system for a perfect vision

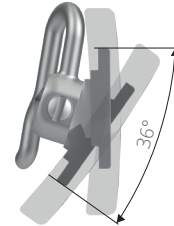

## TRIDIMENSIONAL SELF ADJUSTMENT

Horizontal self adjustment angle around 36°

Vertical self adjustment angle around 36°

Allowing a wide mobility, Ergofeel permits the frame to adjust to different shape of noses without need for registration

## BENEFITS

- Less adjustments needed
- Adaptability to different facial features
- Better fit for more comfort
- Improved quality of vision

As a consequence, Ergofeel broadens the range of adaptability of frames to different morphologies of faces, making it a perfect product for today's multiracial societies

## QUALITY AS A PERMANENT CONDITION

- The self adjustment is a permanent condition. Once in position, the nose pad does not need to be repositioned. Yet it can be done at any time
- Pads do not loosen up if shaken giving high perception of quality
- In case of necessity the Ergofeel can be replaced by a standard pad. In this case the Ergofeel features will be temporarily lost

## MATERIAL AND COLOR

Ergofeel® is available in MPM Medical PVC Material  
Cristal Cold Pads with Plastic Inserts

## PERSONALIZATIONS
