**O'Reilly Industrial Ltd. Informative Report according to the provisions of Dodd-Frank Wall Street Reform and Consumer Protection Act, sec. 1502 (Conflict Minerals)**

Dear Customer,

the Dodd-Frank Wall Street Reform and Consumer Protection Act was signed into US Federal Law on July 21, 2010. Section 1502 of the Act defines the reporting obligations for companies that make products for which the 3TG (Tantalum, Tin, Tungsten and Gold) are necessary to the functionality or production of that product. These obligations include, in particular, to assess their supply chains and report on the source of these minerals if they are sourced from the Democratic Republic of Congo (DRC) or any adjoining country.

O'Reilly Industrial Ltd. is fully aware of this law and has identified that some of the items produced and/or commercialized may actually contain Tin.

For this reason, O'Reilly Industrial Ltd. has completed an inquiry towards its own suppliers of raw material in order to verify that they are not using and they do not intend to use Conflict Minerals originated in Democratic Republic of Congo or any adjoining country. This inquiry, reasonably conducted in good faith and deemed accurate, has confirmed that all its suppliers are "DRC Conflict-free".

For all above, O'Reilly Industrial Ltd. hereby declares that all Visottica Comotec products do not contain Conflict Minerals that they are sourced from the Democratic Republic of Congo or any adjoining country.

Moreover, O'Reilly Industrial Ltd. assures that it will keep on monitoring its suppliers periodically in order to continue to ensure the customers that the components commercialized are "DRC Conflict-free".

Best regards,

**O'Reilly Industrial Ltd.**  
Managing Director Asia  
Ms. Valeria Milani
